

SNEHIL BELEKAR

SENIOR TECHNICAL ARCHITECT – SECURITY ARCHITECTURE & COMPLIANCE CONTROLS

Brussels, Belgium
+32 492 344 350

belekarsnehil@gmail.com
LinkedIn: Snehil Belek

CORE COMPETENCIES

- Security Architecture
- Compliance Frameworks (ISO 27001, NIS2, ISO 27701, ISO 22301)
- Cloud Security – Azure, AWS, Kubernetes
- DevSecOps, GitOps & IaC
- IAM, OIDC, RBAC, PAM
- Security NFR Definition & Controls
- Platform Governance & Security Review
- Risk Assessment & Threat Modelling
- Multi-Cloud Architecture & FinOps

TECHNICAL SKILLS

CLOUD	Azure, AWS, AKS, EKS, ACR, ECR, IoT Hub, Lambda, Cognito
SECURITY	Zero Trust, IAM, SNYK, Key Vault, RBAC, OIDC, PAM
DEVSECOPS	GitOps, Terraform, Helm, Jenkins, Maven, CI/CD
MONITORING	Prometheus, Grafana, Sentry
CONTAINERS	Kubernetes, Docker, Runtime Fabric
DEV	Java, HTML, Spring, Shell
TOOLS	JIRA, Confluence, Ansible, Cert-Manager

CERTIFICATIONS

Infosys Certified DevOps Professional
Infosys Java Certified Developer Cadet
Certified System Architect (CSA)
Business English Proficiency

AWARDS

🏆 Bravo Award
🏆 Insta Award

EDUCATION

B.Eng. Electrical & Electronics
Barkatullah University Institute of Technology,
Bhopal
2006 – 2010

PROFESSIONAL SUMMARY

Senior Technical Architect specialising in security architecture, compliance frameworks, and cloud governance. Expert at converting NIS2, ISO 27001, ISO 27701, ISO 22301, ISO 27005 and risk frameworks into engineering-ready technical controls and NFRs. Known for enabling product teams, guiding security champions, and ensuring consistent control adoption across complex platforms. Strong communicator who bridges compliance, engineering, and architecture to deliver secure, scalable, and resilient systems.

PROFESSIONAL EXPERIENCE

Ypto <i>Technical Architect – Cloud & DC</i> - Defined and implemented security and compliance controls aligned with ISO 27001, ISO 27701, NIS2. - Translated compliance obligations into technical controls and NFRs for cloud and data-centre platforms. - Led FinOps adoption and cost-optimisation strategies across cloud infrastructure. - Delivered Microsoft Fabric and SAP BW integrations with Azure Cloud.	Feb 2025 – Present Brussels, Belgium
Borealis <i>Technical Architect / DevSecOps Specialist</i> - Designed secure cloud platforms for the Digital Twin programme. - Evangelised DevSecOps culture and developed reusable governance blueprints. - Defined technical roadmaps and validated secure design patterns. - Implemented MuleSoft Runtime Fabric with CI/CD, observability, and monitoring. - Strengthened platform security posture via Zero-Trust architecture and SNYK compliance.	Aug 2020 – Jul 2025 Mechelen & Brussels
Infosys <i>Technology Lead</i> - CI/CD anchor for 34 enterprise applications across production environments. - Automated release management and drove containerisation initiatives. - Coordinated cross-vendor delivery and production governance.	Apr 2019 – Jul 2020 Brussels, Belgium
Proximus <i>Infrastructure Analyst</i> - Upgraded 135+ Solaris servers and automated configuration management workflows. - Implemented CI/CD workflows and AWS infrastructure with Docker/Kubernetes. - Managed release, incident, and problem management processes.	Apr 2015 – Mar 2019 Brussels, Belgium
BT <i>Senior Software Lead</i> - Led requirement analysis and solution design for healthcare systems. - Delivered reusable POC templates and mentored development teams.	Sep 2013 – Mar 2015 Ipswich, UK
Infosys <i>System Developer / Trainee</i> - Developed remittance modules for healthcare clients. - Completed intensive training in Java, OS fundamentals, and web applications.	2010 – 2013 India
BSNL <i>Network Engineer</i> - Monitored network performance and resolved LAN/WAN issues. - Prepared technical proposals and implemented modernisation recommendations.	2009 – 2010 Indore, India
